

EXPERIMENT 5

NAME: FAIYAS N

ROLL NO : 240701135

LUCID flow diagram for (event registration app);

WORKFLOW

The workflow represents the process of discovering and registering for events through the application.

- **Start:** User begins at the Sign Up page.
- **Home Screen:** After signing up, the user accesses the Home page.
- **Discovery:** User can click "Discover" to view all events.
- **Event Selection:** User chooses between a Workshop, Seminar, or Club Event.
- **Registration:** User enters details on the registration page and clicks "Register".
- **Confirmation:** Upon successful submission, the "Registration Successful" screen is displayed.

DETAILED PROCEDURE / STEPS

1. **Sign Up:** User opens the app and provides an Email and Password (meeting requirements of 8 characters and 1 number).
2. **Navigate Home:** User lands on the Home Page to view different event categories.

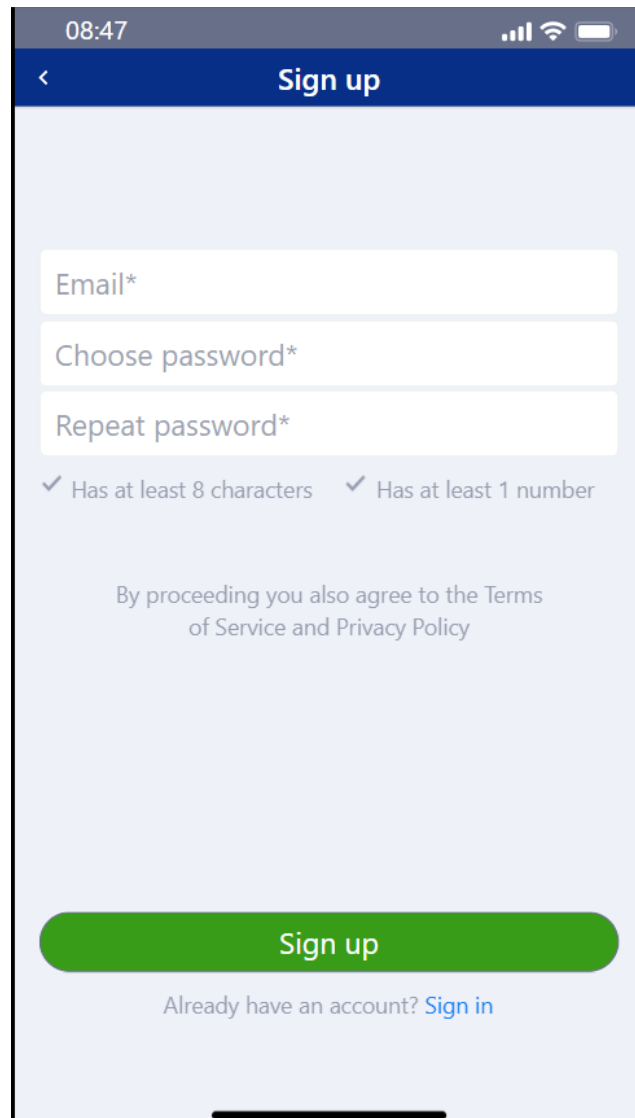

3. **Explore Events:** User can use the "Discover" button to find recommended or new events.
4. **Select Event:** User selects a specific event (e.g., AI Workshop) to view its details.
5. **Review Details:** The system displays the event Date, Time, and Location.
6. **Register:** User clicks the "Register" button and enters their name and credentials.
7. **Confirmation:** The system processes the registration and displays a "Registration Successful" message with a thumbs-up icon.

LOW FIDELITY WIREFRAME :

The wireframes represent the basic layout of the Food Express application screens without focusing on detailed design elements. These screens help visualize the user interface structure and navigation flow.

FRAME-WISE ANALYSIS :

FRAME 1: Sign Up Page:

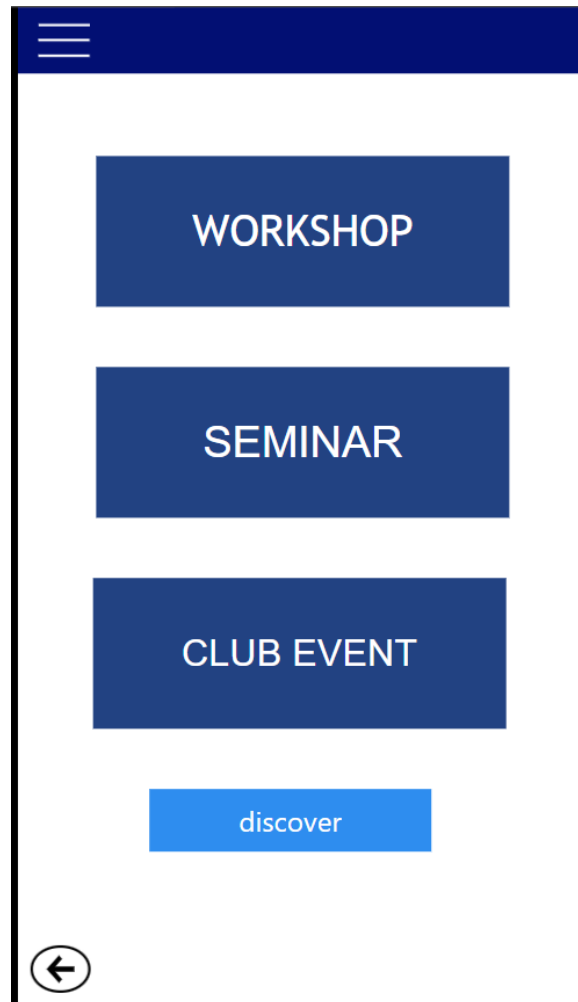

A mobile app sign-up page mockup. At the top, a status bar shows the time 08:47, signal strength, Wi-Fi, and battery. Below is a dark blue header with a back arrow and the text "Sign up". The main area is light blue and contains three white input fields: "Email*", "Choose password*", and "Repeat password*". Below the password fields are two green checkmarks with text: "Has at least 8 characters" and "Has at least 1 number". A line of text reads "By proceeding you also agree to the Terms of Service and Privacy Policy". At the bottom is a large green rounded button labeled "Sign up". Below the button is the text "Already have an account? [Sign in](#)".

- **Purpose:** To collect user details and create a new account for the application.
- **Key UI Components:** Email and Password input fields.
- Green "Sign up" call-to-action button.
- Back arrow for navigation.

- **Usability Notes:** Uses standard input fields and familiar "Sign up" button placement for easy onboarding.

FRAME 2: Home Page:

- **Purpose:** To allow users to navigate between different event types and discover new content.
- **Key UI Components:** Hamburger menu for main navigation.
- Category buttons: Workshop, Seminar, and Club Event.
- "Discover" button (Blue) at the bottom.

- **Usability Notes:** The "Discover" button is an unfamiliar element that may lack immediate clarity for new users.

FRAME 3: Event Details & Registration

EVENT DETAILS

AI WORKSHOP

Date: 20 March
Time: 10:00 AM
Location: Seminar Hall

register

- **Purpose:** To provide specific event information and collect registration data.
- **Key UI Components:** Event heading and information (Date, Time, Location).

- Registration form with "Name" and "Email" fields.
- Green "Register" button.
- **Usability Notes:** Large headers and standard form layouts ensure the user understands the registration process.
