

EXPERIMENT 4

ROLL NO : 240701135

NAME : FAIYAS N

Aim:

Create a prototype with familiar and unfamiliar navigation elements.
Evaluate ease of use with different user groups using *proto.io*.

Familiar Icons:

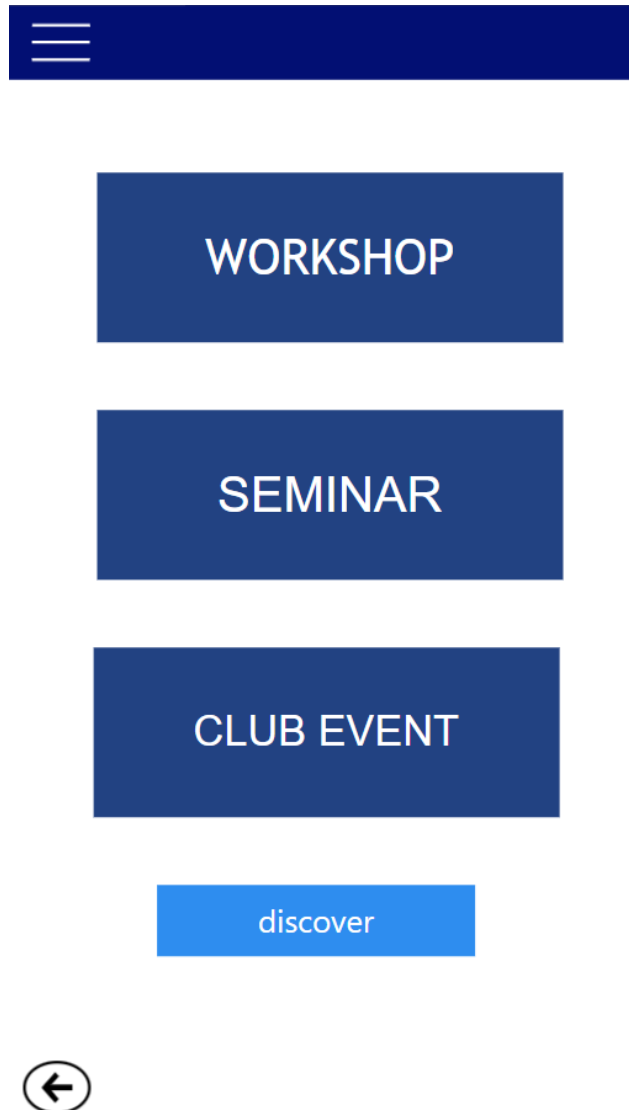

1. **Back Arrow (←)** – Top Left Corner
 - a. A common icon representing navigation.
 - b. Clicking it will take the user back to the previous page.
2. **Email, Password Fields** – Center of Page
 - a. Well-known input fields used for collecting user details.
 - b. The password field uses standard conditions such as “8 characters” and “at least 1 number”.
3. **Sign Up Button (Green)** – Bottom of Page
 - a. Familiar call-to-action button for submitting information and creating an account.

Possibly Unfamiliar Elements:

- **No distinct floating labels** – Some new users might expect clearly visible field labels.
- **Sign In link below the button** – Though fairly common, it might be overlooked by first-time users due to lighter text color and small size.

Screen 2:

Home Page

Familiar Icons:

1. **Hamburger Menu (☰)** – Top Left Corner
 - a. A standard icon representing the app menu for navigation to other sections.
2. **Back Arrow (←)** – Bottom Left Corner

- a. Common navigational icon, used to return to the previous screen.
- 3. **Event Options (Workshop, Seminar, Club Event)**
 - a. Clearly readable and clickable buttons, easy for users to understand and select.

Possibly Unfamiliar Element:

- 1. **Discover Button (Blue)** – Bottom Center
 - a. This is the **unfamiliar element** of the prototype.
 - b. Its purpose might not be immediately clear to first-time users.
 - c. It could lead to new or recommended events but lacks an icon or label explaining its function.

Screen 3:

Event Details Page

EVENT DETAILS

AI WORKSHOP

Date: 20 March
Time: 10:00 AM
Location: Seminar Hall

register

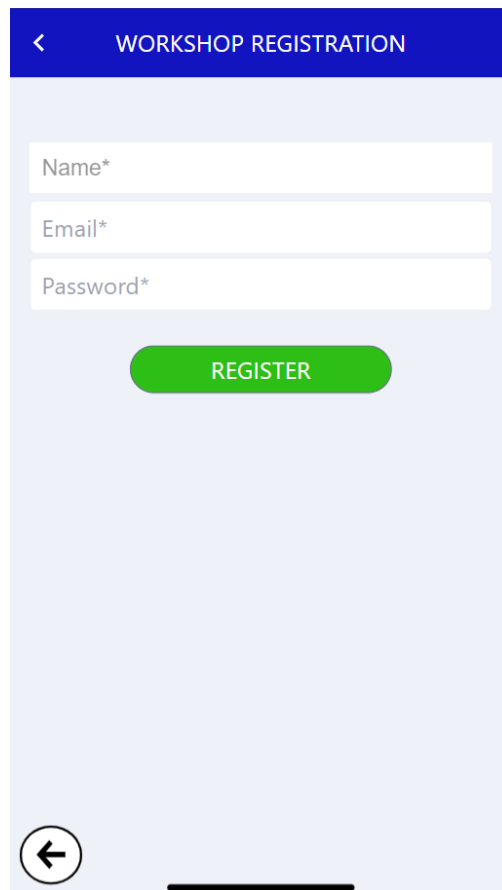

Familiar Elements:

1. **Heading “Event Details” at the Top**
 - a. Clearly shows the page’s purpose.
2. **Event Image and Information**
 - a. Standard design showing “Date”, “Time”, and “Location”, consistent with event apps.
3. **Register Button (Blue)**

- a. A conventional CTA (Call to Action) allowing users to sign up for the selected event.
- 4. **Back Arrow (←)** – Bottom Left
 - a. Common navigation tool to return to the previous screen.

Screen 4:

Workshop Registration Page

WORKSHOP REGISTRATION

Name*

Email*

REGISTER

←

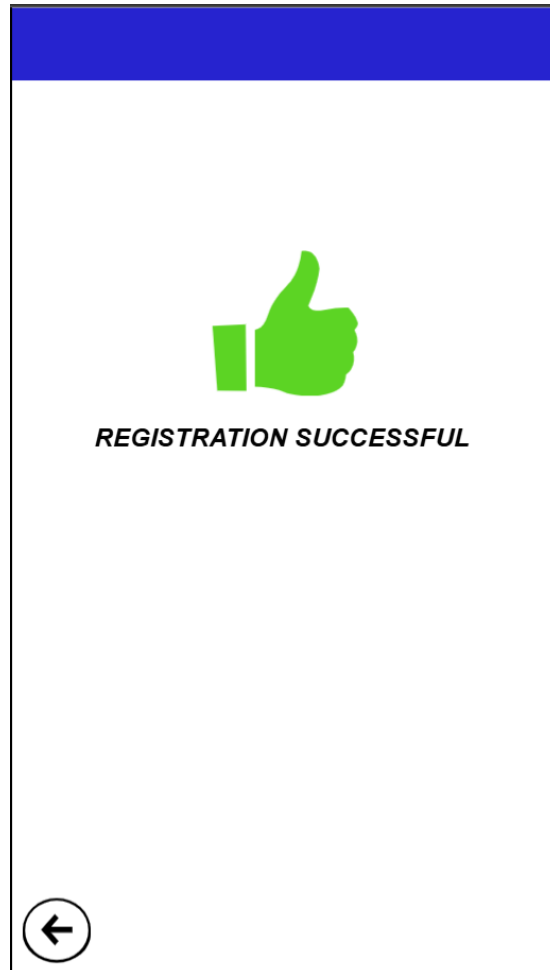

Familiar Icons:

1. **Back Arrow (←)** – Top and Bottom Left Corners
 - a. Used for step-back navigation, widely understood.
2. **Input Fields** – “Name”, “Email”, “Password”

- a. Familiar text input components for forms.
- 3. **Register Button (Green)** – Center Bottom
 - a. Standard submission button for registration forms.

Screen 5:

Registration Success Page

Familiar Icons:

- 1. **Thumbs Up Icon** – Center
 - a. Universally recognized as confirmation or success feedback.
- 2. **Text: “REGISTRATION SUCCESSFUL”**

- a. Provides clear feedback, confirming the action was successful.
- 3. **Back Arrow (←)** – Bottom Left Corner
 - a. Allows the user to return to the previous screen or home page.

Observation / Evaluation:

- **Familiar Elements:** The prototype uses standard icons and layouts such as back arrows, hamburger menus, and clearly labeled buttons which make navigation easy for users familiar with mobile interfaces.
- **Unfamiliar Element:** The “**Discover**” button stands out as possibly unclear in purpose, which may cause hesitation or confusion for new users.
- **Ease of Use:**
 - **Beginner Users:** Found the design direct but occasionally uncertain about the “Discover” option.
 - **Regular App Users:** Were comfortable navigating all sections with minimal effort.
 - **Overall Experience:** Smooth and intuitive with minor improvements needed for clarity in navigation labeling.

Conclusion:

The event app registration prototype successfully integrates both **familiar** (hamburger, back arrow, and registration buttons) and **unfamiliar** navigation components (“Discover” button).
