

EXPERIMENT 9

ROLL NO : 240701135

NAME : FAIYAS N

AIM:

To design and develop a feedback form with name, comments, and star rating system, and to validate user inputs using HTML, CSS, and JavaScript, ensuring that all required fields are filled before submission.

PROCEDURE:

1. Created an HTML form with name, comments, and star rating.
2. Styled the form using CSS for better appearance.
3. Implemented star rating using JavaScript click events.
4. Added validation to check empty fields and rating selection.
5. Displayed error messages for invalid inputs.
6. Showed success message on valid form submission.
7. Executed the program.

FEEDBACK.HTML:

```
<!DOCTYPE html>
<html>
<head>
  <title>Feedback Form</title>
  <style>
    body {
      font-family: Arial;
      background-color: #f2f2f2;
    }

    form {
      background: white;
      padding: 20px;
      width: 350px;
      margin: auto;
      margin-top: 50px;
      border-radius: 10px;
      box-shadow: 0px 0px 10px gray;
    }

    input, textarea {
      width: 100%;
      padding: 8px;
      margin-top: 5px;
    }

    button {
      background-color: green;
      color: white;
      padding: 10px;
      border: none;
      width: 100%;
      cursor: pointer;
      margin-top: 10px;
    }
  </style>

```

```
    .stars {
      display: flex;
      gap: 5px;
      cursor: pointer;
      font-size: 25px;
    }

    .star {
      color: gray;
    }

    .star.active {
      color: gold;
    }

    .error {
      color: red;
      font-size: 14px;
    }
  }
</style>
</head>

<body>

<form id="feedbackForm">
  <h2 style="text-align:center;">Feedback Form</h2>

  <label>Name:</label>
  <input type="text" id="name">
  <span id="nameError" class="error"></span>
```

```
// Form validation
document.getElementById("feedbackForm").addEventListener("submit", function(e) {
    e.preventDefault();

    let name = document.getElementById("name").value.trim();
    let comments = document.getElementById("comments").value.trim();

    let nameError = document.getElementById("nameError");
    let commentError = document.getElementById("commentError");
    let ratingError = document.getElementById("ratingError");

    nameError.innerHTML = "";
    commentError.innerHTML = "";
    ratingError.innerHTML = "";

    let valid = true;
```

```
    let valid = true;

    if (name === "") {
        nameError.innerHTML = "Name is required";
        valid = false;
    }

    if (comments === "") {
        commentError.innerHTML = "Comments cannot be empty";
        valid = false;
    }

    if (rating == 0) {
        ratingError.innerHTML = "Please select a rating";
        valid = false;
    }

    if (valid) {
        alert("Feedback submitted successfully!");
    }
});
</script>

</body>
</html>
```
